**AB Pro Photo** is a growing company but prides itself on remaining small enough to maintain a low over head as well as the personal touch.

**AB Pro Photo** came into being in 2000. Al Unsworth brought 17 years of experience and the knowledge of his own photographic journeys to be able to offer a full menu of service.

Al saw a need in the marketplace for a quick turn around of high quality portraits and other photographic needs. So in order to cater to these needs, he set out to purchase the state of the art **KODAK PROFESSIONAL DIGITAL SYSTEM**. This enables AB Pro Photo to be in control of every subject from start to finish.

**AB PRO PHOTO** understands that selecting a photographer to meet the needs of your school and community can be difficult and confusing. This is why we want you to tell us what your needs are. Knowing this we will be able to build a program that meets the needs of your school, your students, and their families.

As well as photographing schools, AB Pro Photo has become very proficient in photographing weddings, community events, sports teams, commercial and industrial photography, corporate events and much more!

Suite 8, 3300 - 14 Avenue NE Calgary, AB. T2A 6J4

## Package Configuration & Pricing

### •Proof Program (most popular)

Photo day announcements will be sent to the school approximately 2 weeks prior to photo day. On photo day each student will have two photographs taken. These proofs will be printed on an order sheet and sent home with the students, quite often on that same day. Parents will then have **1 week** to choose the **pose (s)** as well as the **package (s)** or other options, which they desire. Retakes may be done on a date that will be set by the administration and AB Pro Photo.

(Please allow 1-3 days for proofs and 2 weeks for finished order)

### •Pre-Pay Packages

Order sheets will be delivered to you approximately 2 weeks prior to photo day. The envelopes are then sent home with the students for the parent to choose the package (s) that suits the family's needs. On photo day the envelope is presented to the photographer. The package that you have selected and pre-paid is then printed from the portrait taken. **(Subtract \$3.00 from each Select-A-Pack Pricing)**

(Please allow 2 weeks for delivery)

### •Standard Pack

Photo day announcements will be sent to the school approximately 2 weeks prior to photo day. This program allows the School/Parents to predetermine a package for each student in the school. Each student will have a photograph taken and a package will be printed from the portrait taken!

## Commission/Rebates

Because AB Pro Photo is a small company we are able to design programs to suite your school.

Our standard rebates are as follows:

- \$1.00 from each package sold goes back to school
- Free 5x7 class photos for each student photographed (ordered or not)

## Availability

We pride ourselves on being hands on with all of our customers. We make ourselves available to you whenever you require. We have a variety of dates available in September and October and would be more than happy to work out a schedule that fits your requirements

## Turn Around Time

One of the first questions that arise with school portrait is turn around time, "How Soon Can We Receive Our Photographs?" Unlike most of our competition, we are located in Calgary where all of our production takes place (we do not send our work out of city, province or country to be printed). This is why we are able to promise to have proofs back to the school within **3 working days** in some cases the same day.

We will also have packages returned within **2 weeks of receiving orders.**

Switching to the cutting edge of digital photography equipment puts us in control of every portrait from photo day at your school to delivering the final portrait packages, which you anxiously await.

## School Services Available

- Class photos
- Class composites
- ID Cards (designed specifically for school)
- Roof top shots
- Special events
- Reproduction of digital images taken by school
- Family photo day (fund raising program)
- Team and club photos

AB Pro Photo

## Administrative Services Available

- A digital database, which runs with any web browser to contain information of each student based on the information, we receive from the administrators system. This information is put onto a CD so you can access a photograph or locate information pertaining to a student.
- A photo strip, which contains images of a student to be used in an administrative setting. These images can be black and white or color and can be gummed for expedient use.
- Pictorial directory which has a full color portrait of each student and collated to your needs (i.e. Grade, Class, Teacher, you decide)
- Free photo package for staff
- Free class photo for staff
- Staff group photo or composite framed for school archives
- A roof top photograph or a class composite framed for School archives

All services are available at **no cost** – reorder pricing may come into effect, i.e. Students ordering a roof top shot
